

Questions and Answers for RFP#2-11-26-18 vol.2

1. I was reviewing the RFP and had a question regarding the "Additional Requirements". QPA is a national corporation and we have a sole owner. Is the RFP requiring that we provide the owners name and social security number? Yes, the RFP is requiring that anyone with more than 25% ownership be named and their Social Security number be identified.
2. In order to bid appropriately, I need to know additional details that will help me set pricing and terms. For example, where are the actual worksite locations, how many locations for each state, the job descriptions of the associates being placed, are these associates already working or will we hire them? Please review the previous Q&A posted on our website for answers to these questions. As to the last item in this question, the winning firm will become the employer of record for the work experience participants.
3. Can you share more details about the risk factors? The majority of these positions are clerical in nature and have the risks associated with those type of positions.
4. Last, can you clarify the payroll portion of the bid? Will it be EOR or Non-EOR? Will be employee of record.
5. We can service any worksite in the country but would like more information on the payroll (i.e. estimated monthly payroll, how many employees, insurance included, etc..) See the previous Q&A posted on our website for answers to this question.
