

Questions and Answers for RFP#2-11-26-18 vol.3

1. Could you please provide the address of each job center where the payrolled staff is located?
The addresses fluctuate based on the number of work experience participants enrolled, therefore, we cannot provide specific addresses as the participants may no longer be working at those locations.
2. You have listed the number of participants per state but could you break it down per project so we can give an accurate pricing for staff planning purposes? For the same reasons identified above, we will not be providing a further breakdown. We feel that the information provided should allow the potential providers enough information to respond to the RFP.
